

Energy Detectives

**A free,
hands-on, one-
day workshop for
5th-12th grade teachers**

**Substitute Reimbursement
Breakfast and Lunch Provided
Hands-on Kits and
Materials Provided
Professional Development
Credit Available**

Your students will be motivated to learn about energy-related concepts when they become Energy Detectives. Students find out how their school and homes use energy and how to reduce energy consumption through this hands-on program correlated to New York's Learning Standards. Attendees receive hands-on kits and materials and their students receive take-home energy conservation kits.

Hilton Garden Inn, Buffalo Airport
Buffalo | November 6th | 8:30 a.m. to 3:30 p.m.

TO REGISTER, go to www.regonline.com/needbuffalo10

Jamestown Public Schools District Offices
Jamestown | October 18th | 8:00 a.m. to 3:00 p.m.

Delivered in cooperation with the Jamestown Public Schools

TO REGISTER, go to www.regonline.com/needjamestown10

Workshop Topics

ENERGY SOURCES: Activities that teach about where our energy comes from and how it affects our economy and environment.

HEAT TRANSFER: Activities that show how heat moves and how insulation and air sealing save energy

MONITORING ENERGY: How to measure, track, and graph energy use at home and school

ENERGY STUDY: How to do an energy study of your building with your students.

SAVING ENERGY AT HOME: Your students will be provided with materials to help them study energy use at home and lower energy bills.

FREE CLASSROOM KITS!

To be eligible, your school must be located in National Fuel's service territory.
