

An example of how you can make high efficiency more affordable:

(Two) New 95% High-Efficiency, Condensing Boilers **\$15,000**

(Two) Standard 80% Efficiency Non-condensing Boilers **\$7,500**

Cost Difference for Higher-Efficiency Model \$7,500

One-Time Fixed Rebate **\$3,000**

Cost Difference after Rebate **\$4,500**

Annual Operating Cost Savings **\$1,436/year***

Simple Payback on Cost for High-Efficiency Model **3.1 years****

*This is only an example. Your actual investment and savings may be higher or lower depending on the models you choose to install, the efficiency of the furnace you are replacing, fluctuating fuel costs and your actual installed cost. Based on average gas costs of \$6.74 per Mcf for the 12 months ending September 30, 2017.

**With savings on annual operating costs of \$1,436 per year, the \$4,500 incremental investment will be paid back in 3.1 years.

Free technical assistance.

As a courtesy to both our customers and contractors, C.J. Brown Energy will provide free technical assistance with the application process, as well as facility walk-through and return on investment calculations. Contact C.J. Brown Energy at **1-844-365-3493** or email at **NFRebateHelp@cjbrownenergy.com**.

So why is National Fuel helping you use less natural gas?

A lot of people believe that National Fuel controls the cost of natural gas and that higher natural gas prices equal more revenue for the utility company. The truth is that utilities have no control over the market price of natural gas. The price you pay for natural gas is set in the energy marketplace, where forces of supply and demand drive value. By law, we pass those costs to customers without mark-up.

With the **Conservation Incentive Rebate Program**, National Fuel is providing customers with ways to use less natural gas, helping to bring balance back to the marketplace—and lowering the price we all pay for the energy we use.

To download a rebate application and learn more energy-saving tips, visit NationalFuelForThought.com.

Smell gas? Leave fast! Then call 1-800-444-3130

If you smell rotten eggs, it could be a natural gas leak. Leave the premises immediately and contact National Fuel from a different location.

For gas emergencies call 1-800-444-3130 24 hours a day, 7 days a week.

If you have a question, problem or request, please call us Monday through Friday, 7 a.m. to 6 p.m.

Buffalo, NY area: 1-716-686-6123

A Guide to Saving Money and Energy with the Conservation Incentive Program

For Non-Residential Customers

National Fuel

The Conservation Incentive Program

Thinking about purchasing a new piece of natural gas equipment? Choose high efficiency and save.

The **National Fuel Conservation Incentive Rebate Program** offers non-residential customers in the Western New York service area several money-saving rebates for installing specified appliances with new, energy-efficient models. By combining rebates with projected annual savings for using more energy-efficient equipment, new, high-efficiency appliances can quickly pay for themselves.

Offering you two ways to save.*

- **Fixed (Pre-Qualified) Rebate**
Available on pre-qualified equipment.
- **Customized (Performance-Based) Rebate**
Determined on a case-by-case basis, based on the results of an energy-use analysis. Customized rebates are determined by multiplying the annual energy savings in Mcf by \$15. This may result in a larger rebate than if your company received a fixed rebate.

*New construction projects are also now eligible for rebates in 2018. Rebate cap of \$100,000 per account, per program year.

Receive these fixed rebates on select natural gas appliances and save energy and money.

Equipment Type	National Fuel Minimum Efficiency	Equipment Size (MBtu/h)	National Fuel Rebate
Space Heating Equipment			
Hot Air Furnace	≥ 90% AFUE		\$3.00/MBtu/h
	≥ 92% AFUE		\$4.00/MBtu/h
	≥ 95% AFUE		\$5.00/MBtu/h
Hot Water Boiler (Non-condensing)	ENERGY STAR® or ≥ 85% AFUE	≤ 300	\$600
	≥ 85% E _T	301-500	\$750
	≥ 85% E _T	501-1,000	\$1,500
	≥ 85% E _T	1,001-1,700	\$2,500
	≥ 85% E _T	> 1,700	\$3,000
Hot Water Boiler (Condensing)	≥ 90% AFUE	≤ 300	\$1,000
	≥ 90% E _T	301-500	\$1,500
	≥ 90% E _T	501-1,000	\$2,500
	≥ 90% E _T	1,001-1,700	\$3,500
	≥ 90% E _T	> 1,700	\$4,500
Steam Boiler	≥ 82% AFUE	≤ 300	\$2.00/MBtu/h
	≥ 79% E _T	301-2,500	\$1.00/MBtu/h
	≥ 80% E _T	2,501-10,000	\$1.00/MBtu/h
Warm Air Unit Heater	≥ 90% AFUE or E _T		\$2.00/MBtu/h
Low-Intensity Infrared Heater	Any efficiency		\$2.50/MBtu/h
Vent Damper	For existing gas-fired heating systems only.		\$1.00/MBtu/h
Pipe Insulation	R-value ≥ 4. For existing gas-fired hot water or steam systems only.		\$3.00/ft.
Duct Insulation	R-value ≥ 6. For existing uninsulated ductwork only.		\$0.50/ft.
Water-Heating Equipment			
Storage Tank Insulation	R-value ≥ 9		\$1.00/sq. ft.
New Circulation Controls			\$500/unit
Storage Tank Water Heater	0.67 EF	< 75,000 Btu/h ≤ 55 gal.	\$100
	0.77 EF	< 75,000 Btu/h > 55 gal.	\$200
	0.90 E _T	> 75,000 Btu/h ≤ 140 gal.	\$300
Tankless Water Heater	0.82 EF		\$200
Tankless Water Heater	0.90 EF		\$300
Cooking Equipment			
Fryer	ENERGY STAR® qualified		\$750
Broiler	Cooking efficiency ≥ 30%, tested using standard ASTM F2835-10		\$500
Convection Oven	ENERGY STAR® qualified		\$500
Combination Oven	Food Service Technology Center rated		\$750
Steamer	ENERGY STAR® qualified		\$750
Griddle	ENERGY STAR® qualified	≤ 2 feet wide	\$350
		3 feet wide	\$525
		4 feet wide	\$700
		5 feet wide	\$875
		≥ 6 feet wide	\$1,050
Other Gas Appliances			
Commercial Natural Gas Dryers	ENERGY STAR® qualified		\$50
Controls			
Wi-Fi Thermostat	N/A		\$75
